

Agenda By Day

Day 1	Chairs Welcome	Ugo Pastorino, Matthijs Oudkerk, and Stephen Lam
	Topic 1: Overview of the current evidence for Lung Cancer early detection and screening	Discussant: David Baldwin
	Topic 2a & 2b (N. America + Asia): Opportunities and Challenges to Advance Lung Cancer Screening Globally	Discussant: Claudia Henschke
	Topic 2c (Europe): Opportunities and Challenges to Advance Lung Cancer Screening Globally	Discussant: Ella Kazerooni
	Topic 3A (1-4) : Lung Cancer Screening implementation methodology	Discussant: David Yankelevitz
	Topic 3B (5-8) : Lung Cancer Screening implementation methodology	Discussant: Stephen Lam
	Discussion + Live Chat Q&A from audience	Discussants + Chairs
	Conclusion of Discussion	Matthijs Oudkerk
	BREAK	
	Introduction & Questions for Discussion	Ugo Pastorino
	Staging Committee Perspective and Database Discussion	Hisao Asamura
	Discussion & Live Chat Q&A	All Chairs and Dr. Asamura, Dr. Hirsch and Dr. Carbone
	Conclusion of Day 1	Ugo Pastorino, Stephen Lam
Day 2	Welcome	Ugo Pastorino
	Topic 4: Lung Cancer Early detection and screening tailored to the population risk	Discussant: Martin Tammemagi
	Topic 5: Patient-centric Health Care and Lung Cancer Screening	Discussant: Karen Canfell
	Topic 6: Treatment of screening detected early lung cancer	Discussant: Annette McWilliams
	Topic 7: Biomarkers	Discussant: Sam Hanash
	Discussion + Live Chat Q&A from audience	Discussants + Chairs + Speakers
	Conclusion of Discussion	Stephen Lam
	BREAK	
	Introduction and Questions	Matthijs Oudkerk
	IASLC Perspective and Future Plans	Giorgio Scagliotti
	Artificial Intelligence Challenges for LDCT Lung Cancer Screening	Peter van Ooijen
	Discussion & Live Chat Q&A	All Chairs and speakers
	Conclusion	Ugo Pastorino, Matthijs Oudkerk, and Stephen Lam

Pre-recorded Full-Length Talks

TOPIC #	Topic Area	Talk Title	Faculty
1	Overview of the current evidence for Lung Cancer early detection and screening	Lung Cancer Implementation after 10-years NELSON follow up results	Harry de Koning
		Lessons learnt from Lung Cancer screening studies worldwide towards optimal implementation	John Field
2	Advance Lung Cancer Screening Globally	USA: Population Implementation. Report on the First Million Screens in the ACR Lung Cancer Screening Registry	Ella Kazerooni
		Canada: Organized screening programs in Canada	Martin Tammemagi
		Taiwan: Moving Beyond TALENT	Pan-Chyr Yang
		Japan: outline of screening implementation in Japan	Tomio Nakayama
		China: The Nelcin B3 Trial	Li Fan
		Korea: Population implementation progress based on K-LUCAS Korean trial	Yeol Kim
		England: The NHS Lung Health Checks	Philip Crosbie
		Italy: the BioMILD and SMILE study results	Ugo Pastorino
		Russia: Lung Cancer Screening in Russia	Victor Gombolevski
		Poland: interim results of the MOLTEST BIS study	Witold Rzyman
		France: the IARC project. Development and Validation of a Protein Biomarker Panel in the Lung Cancer Cohort Consortium	Hilary Robbins
		Croatia: starting a new screening program from scratch	Ante Marusic, MD, PhD
		Israel: a new Lung cancer pilot in Soroka hospital	Nir Peled
Lung cancer screening in the times of respiratory infections	Rudolf Maria Huber		

Pre-recorded Full-Length Talks

3	Lung Cancer Screening implementation methodology	Quality control: Phantom testing and optimal CT performance	Rick Avila
		Acquisition protocols and minimal dose requirements	Marleen Vonder
		Reconstruction protocols software vendor performance	Mario Silva
		Optimal diagnostic decision algorithms	Joan Walter
		Screening in the US post Nelson	David Yankelevitz
		Diagnostic workup after referral	David Baldwin
		Cost-effectiveness of European Implementation	Kevin ten Haaf
		Screening Implementation in middle - and low-income countries	Lucía Viola
4	Lung Cancer- Early detection and screening tailored to the population risk	Ambient air pollution exposures: Individual lung cancer risk assessment	Stephen Lam
		Sex differences in lung cancer screening	Marjolein Heuvelmans
		Lung cancer screening in patients who never smoked	Chris Amos
5	Patient-centric Health Care and Lung Cancer Screening	Health Connect – The New Zealand/Atlantic Canada Cancer Screening Project	Michael Partridge
		Early Detection of B3 Diseases	Matthijs Oudkerk
		Early detection of interstitial and obstructive lung diseases	Bram van Ginneken
		Early detection of coronary artery calcification	Arthur Stillman
		Sharing decision with Primary Care Physicians	Jacob Sands
		Patient Perspective on CT Lung Screening	Andrea Borondy-Kitts
6	Treatment of screening detected early lung cancer	Lobectomy vs sublobar resection	Ugo Pastorino
		SABR/SBRT and Protontherapy	Suresh Senan
		New prospects of chemoprevention	Eva Szabo

Pre-recorded Full-Length Talks

7	Biomarkers	The Grail study	Sam Janes
		The added value of Biomarkers for individual risk profile	Luis Montuenga
EXTRAS	New Tools and Resources	Go2Foundation: National Network of Screening Centers of Excellence	Laurie Fenton Ambrose
		Maine Health, Maine Medical Center Lung Screening Program Patient Education Tool	Theresa M. Roelke
